Continental RESOURCES Youth Geology Field Camp

Grades 9-12
June 10-15, 2012

SOUTH DAKOTA

SCHOOL OF MINES
& TECHNOLOGY

www.sdsmt.edu/learn

WHO SHOULD ATTEND

If you like the outdoors, then this camp is for you! Students thinking of a career in geology, geological engineering, or paleontology, as well as students interested in earth systems science are encouraged to attend!

Continental Resources Youth Geology Field Camp is an exciting overnight, outdoor camping activity for high school students in grades 9-12.

WHAT YOU WILL LEARN

This camp provides an understanding of the earth. Through daily field trips, participants will learn about:

- basic geology
- minerals, rocks, and fossils
- oil and gas exploration and production
- using a topographic map
- reading a compass
- understanding geologic maps
- water, landslides, and earthquakes
- volcanoes and magmas
- geology of the Black Hills
- creation of mountains and landforms
- living the life of a field geologist

IS IT REALLY CAMP?

Yes! Students will have same-sex roommates for tent camping, eat real outdoor cooking, visit the Museum of Geology, and go on field trips to see geologists in action at real geology camps, research laboratories, and local industries.

WHAT PARENTS AND TEACHERS SHOULD KNOW

Students need first-hand experiences to help them make critical decisions about what classes to take in high school to prepare them for science-based careers.

Continental Resources Youth Geology Field Camp features an atmosphere of discovery and guidance with other students and professional role models. This pre-college experience will enhance their exposure to possible future professions.

SOUTH DAKOTA SCHOOL OF MINES AND TECHNOLOGY

Founded in 1885, the South Dakota School of Mines and Technology is a premier technological university, providing a 21st century education to talented and motivated students engaged in challenging and exciting academic programs.

Award-winning undergraduate education is enhanced by graduate education and research and development in areas of critical need to the state of South Dakota, the nation, and the international community.

The School of Mines has a proud heritage of excellence in preparing graduates to serve as leaders in engineering and science. We invite you to visit us and see all that we have to offer!
